EDITORIAL

Polls Close At 7 P. M.

It is hoped that the result of today's Placerville school bond election will be a truly representative opinion of the community.

Everyone should cast his vote according to his best judgment as to the needs for the welfare of the community.

If you have neglected to vote, perhaps there is yet time. The polls (at Placerville grammar school) close at 7 p. m.

Sewer Bonds Supported

The following additional endorsements of the proposed \$50,000 sewer bond issue, on which the community will vote Tuesday, June 1 (polling place is at City Hall) have been received:

For six years I served as a member of the Board of Trustees of the City of Placerville retiring from office in 1924 and even during my term in office, when the population of the city was about one-third of its present population, the Board of Trustees realized the necessity of at sometime providing the city with an adequate sewage disposal system. I felt then, as now, this improvement to be an absolute necessity and I do not believe the people should delay any longer, particularly, in view of the ability to obtain money at a low rate of interest and the possibility of obtaining a federal grant to aid in the work.

I do not hesitate in endorsing the sewage bond election to be held on Tuesday, June 1st.

H. E. DILLINGER.

Believing that the City of Placerville should have a sanitary method of disposing of its sewage, in order to safeguard the health of the community and realizing that the time is not far distant when the State Board of Health may compel this improvement I am glad of the opportunity of endorsing the proposed bond election and I urge all voters to go to the polls on Tuesday, June 1st, and vote yes in favor of the \$50,000 sewer bond proposal.

L. A. RAFFETTO

Having always felt that Placerville's system of sewage disposal was unsanitary, I am sincerely in favor of the proposal to bond the City of Placerville in the sum of \$50,000 in order to remedy the situation.

Since I have been engaged in business as a real estate broker the necessity for this improvement has been daily impressed upon my mind and I sincerely believe that the present system of sewage disposal, besides being unsanitary, actually retards the development of the city.

MARION ATWOOD

Please don't pass the sewer bonds. All us rats will have to find someplace else to hide out if the creek is cleaned up.

A. RAT

SCOUT CHARTER PRESENTED AT DIAMOND

Diamond Springs Boy Scouts, Troop 95, received their charter on Thursday night at a meeting held just before the regular meeting of the Diamond Springs P.-T. A.

The P.-T. A. has sponsored the Boy Scout troop.

Charles Doe, Jr., was installed as Scoutmaster, with Jack Landis, Jr. and Joe Tirapelle as assistants by E. W. Zueger, who presented the charter on behalf of the Golden Empire Council and the El Dorado County district.

William Henderson is the troop committee chairman.

Tenderfoot investiture ceremony was conducted in very capable fashion by Frank Dayton, Scoutmaster of Troop 67 of Placerville.

OUTLOOK ROSEY

PHILADELPHIA (UP)—Information received from potential employers in business and industry has caused placement bureau officials at University of Pennsylvania to believe employment opportunities for graduates this year will be the best since 1929.

Harry Duke was in town Friday, calling on the trade.

County Pupils Win Awards

Pollock Pines Girl Gets First Honors In Division 2

Margery Hetherington of the sixth grade of Pollock Pines school, won first prize in Division Two of an essay contest on dental care, sponsored by the California Dentists' Association.

This is according to word received Friday morning by County School Superintendent E. J. Fitzgerald from Dr. C. N. Fitzgerald (no relation) secretary of the Sacramento District Dental Society, enclosing a \$10 check for Margery.

The letter also bore the names of and checks for other winners in the county.

In the state-wide competition, in addition to the honors won by Margery Hetherington, honorable mention in the seventh grade contest was won by Edward Thomas of the seventh grade at Pollock Pines; in the eighth grade contest by Aimee Neely of Placerville; and in the fifth grade contest, by Margaret Morehouse of Placerville.

In the district contest, Nova Van Hurlingen of the sixth grade of Placerville school, won a \$1 award.

In the seventh grade contest in the district, Joan Leaky of Summit school, won second prize and a \$2 award; and one dollar checks also went to Ellen Hanson of Georgetown, and Edward

(Turn to Page 3)

Fire Training Concluded

30 Forest Employees In 3-Day Meeting At Lookout

The annual fire guard training on Eldorado Forest, which opened on Tuesday, was concluded Thursday afternoon.

Ranger George B. Young was in charge of the group which met at Armstrong Lookout on the Alpine highway for three days of intensive study of fire-fighting and control methods.

All rangers on the forest, district fire chiefs and other field men, numbering approximately thirty, were in attendance. Ranger Young had, earlier this spring, attended a two-week course of instruction at Berkeley in preparation for his duties at the guard training.

ORIN CROFT TO WED ROBBINS GIRL

MARYSVILLE—The betrothal of Miss Nadene Stice to Orin Croft was announced recently at an informal dinner given at the home of the bride-elect's parents, Mr. and Mrs. Frank Eastman of Robbins. The wedding will take place during the coming winter.

Clever announcements in the form of place cards told of the engagement. Sweet peas and larkspurs centered the prettily appointed table.

Miss Nadene Stice, daughter of Mr. and Mrs. Frank Eastman and a member of the 1934 graduating class of Yuba City union high school, is now employed with the Bell Telephone Co. in Sacramento.

Orin Croft, son of Mr. and Mrs. Charles Croft of Placerville, and a graduate of the El Dorado high school, is now employed in the Sierra Mill and Lumber Company, in Sacramento.

Guests at the dinner included: Miss Naomi Tibbadeaux and Pete Ghilfi of Sacramento, Miss Frances Lueth, Bud Stice, Mr. and Mrs. Clarence Eastman and son Roy, Mr. and Mrs. William Beard and Fay Eastman.

GEORGE VI COINS

OTTAWA, Ont. (UP)—The Canadian government has begun placing into circulation a new series of King George VI coins, ranging in value from one cent to one dollar. The amount of the new coins issued will depend on public demand.

The regular May 28 meeting of the Kelsey Farm Center has been postponed until June 4, it was announced Thursday.

MAYOR Above is Dr. Charles Mercier, mayor of Monts. France, expected to perform the civil ceremony uniting in marriage the Duke of Windsor and Mrs. Wallis Warfield on June 3. Dr. Mercier is a modest country physician who administers the community's medical as well as legal needs. This ceremony would precede a religious one.

Dionne Babes 3 Years Old

Quins May "Take The Cake" But They Can't Eat It

CALLANDER, Ont. —The Dionne quintuplets celebrated their third birthday today under the watchful eyes of nurses who said "no" whenever they reached for a piece of cake.

Tonight Marie, Emilie, Cecile, Annette and Yvonne may say "hello" to the world in a "nursery broadcast" from 6:30 to 7 p. m. (EDT) over a National Broadcasting Company network. But they may revolt and say nothing.

Dr. Allen Roy Dafeo, the country physician, who arrived at the farm home of Oliva Dionne on May 28, 1934, to take part in a medical miracle, issued the "no sweets" order. He said candy and cake weren't good for little girls—not even on birthdays.

As a special treat, the quins were permitted to indulge their love for fancy bows and laces, bright socks and new shoes. Their dolls were dressed up, too, in bracelets, necklaces and bright-colored coats.

Five birthday cakes were on the nursery table, and Marie or Yvonne or any of their sisters were permitted to get close enough to poke inquisitive fingers at the icing. But they couldn't taste it, and Dr. Dafeo said that when the party was over, the cakes would be eaten by members of the nursery staff or sent across the road to the Dionne farm for the other Dionne children.

Mama and papa Dionne were expected to visit the nursery with their other children. Oliva Jr., who was born last July, probably will be left at home because the quins weren't very lady-like during his last visit. They gave him a "going over."

42 Die In Air Raid On Valencia

VALENCIA (UP)—The apartments of Milton Wells, United States consul, were damaged today during a terrific air raid on the temporary loyalist capital.

Many were killed and wounded. A British ship in the harbor was damaged. The Paraguayan legation was wrecked.

An unofficial check showed 42 persons killed ashore, 67 gravely wounded, 45 others less seriously injured, and at least 30 buildings wrecked.

Ford Workers May Boycott Strike

RICHMOND (UP)—Workmen opposed to the strike that has closed the Ford assembly plant here, called a meeting for tonight to consider affiliating with the American Federation of Labor.

The strikers are members of the United Automobile Workers of America, and affiliate of the committee for industrial organization.

Frank Slaby, head of the strikers, called the new group a "company union" and said it did not have more than 150 members. The U. A. W. A. claims 1300 of the 1500 workers as members.

60 Killed In Landslide

300 Homes Crushed As Mountain Hits Mexico Village

EL ORO, Mexico (UP)—Soldiers, policemen and volunteers worked at urgent speed today to strengthen dykes and prevent millions of tons of muddy earth from obliterating the mine village of Talphujahua.

The little school house of the village already was filled with bodies of men, women and children caught when one dyke burst yesterday and sent a landslide crashing down to bury some 300 houses.

Telephonic advices from the village said that more than 40 bodies had been recovered.

Sixty persons were missing and feared dead.

General Gilardo Magana, governor of Michoacan State, hurried to the village to direct rescue work. Authorities of nearby towns and the government at Mexico City sent physicians, nurses, soldiers, police, labor department workers and volunteers in special trains to the scene.

Two of the three remaining dykes that held back cyanide and water soaked earth from the village were reported weakening, one seriously. Rain which fell for the fourth straight day, (Turn to Page 3)

CCC May Draw 3-Year Term

Compromise Bill Is Reported Today In Congress

WASHINGTON (UP)—Senate and House conferees today agreed on a compromise bill which would extend the life of the Civilian Conservation Corps three years.

The House receded from its stand on extending the CCC two years, and the Senate gave way on its position for a permanent organization.

President Roosevelt had asked that agency be made permanent.

House conferees agreed to the Senate amendment to place all administrative employees on the corps under civil service.

The compromise measure will be reported to both Houses today and final action probably will come next week.

JUNE 1 CLOSING DATE FOR '36 PAYMENTS

June 1 has been set by the Agricultural Adjustment Administration as the last day on which county conservation committees in California can accept applications for payments under the 1936 Agricultural Conservation Program.

In announcing this closing date, G. E. Farrell, director of the AAA Western Division, points out that no applications for payments under the 1936 program should be received by county committees after the June 1 date except when extenuating circumstances warrant.

Applications for 1936 payments already received in the State Conservation Committee office at Berkeley from county committees total about 19,000. Payments amounting to over \$2,000,000 have been made to California farmers covering about 16,000 of these applications.

Film Authoress In Night Club Brawl

NEW YORK (UP)—Adele Rogers St. John, Hollywood writer, her husband, Patrick O'Toole, a publicity man, and five other persons were under \$500 bail each today after a night club brawl in which three men were injured, one seriously.

Miss St. John told police that the battle started after she, her husband and two other men were refused admittance to Bill's Gay Nerties. She said that as one night club employee informed her party there were no tables vacant another struck at her escorts with his fist. The employees denied participation in the fight.

RISE Confirmation of Sumner Welles as Under-Secretary of State was recently made by the Senate. Mr. Welles, shown above, was former Ambassador to Cuba and, recently, was Assistant Secretary of State. The post had been vacant since August when William Phillips went to Italy.

Legislature Near End

Assembly Delayed In Adjournment By Upper House

By GEORGE E. HELMER
United Press Staff Correspondent

SACRAMENTO (UP)—California legislators moved into the last official day of their 52nd session today, still facing final action on a score of controversial measures that had been delayed until the last possible moment.

This was the day set for adjournment, and for official purposes clocks in both houses will be stopped tonight. But the session may continue until Sunday, Monday or later, depending upon the length of time required to clear away the business remaining on the calendars.

By virtue of record-breaking progress early in the week, the Assembly was in good shape and could end its work tonight without undue difficulty. The Senate, however, for the first time in many sessions, found itself in the peculiar position of having a heavy file to consider when the lower house was practically clear. Usually, the Senate finishes first, and has to wait for the Assembly.

EVELYN CORKER GRADUATES JUNE 18

Miss Evelyn Corker, daughter of Mr. and Mrs. John F. Corker of Pino Grande, will be graduated from San Jose State College during the commencement day exercises to be held Friday, June 18, 1937.

A graduate of El Dorado County high school, she was active in band and orchestra while there. Receiving her degree in arts and letters, Miss Corker majored in commerce, and was active in the band, orchestra and symphony while on the campus.

Climaxing a week of traditional senior activity, the class will be afforded the honor of being graduated in the Diamond Jubilee year of the college history.

STRIKING STEEL EMPLOYEES GAINING

CLEVELAND (UP)—The C. I. O. steel union won some additional support today in its strike for a signed contract with three big independent steel companies.

Joining the 60,000 to 70,000 already idle in a three-day strike, 900 employees of two Republic Steel Corporation subsidiaries in Beaver Falls, Pa., and Cumberland, Maine, walked out.

Union pickets were unable, however, to force the closing of four of Republic's big producing units, which remained in operation at Warren and Canton, Ohio, Chicago and Buffalo, N. Y. The company said 23 of its open hearth furnaces were still producing out of 60 operating before the strike.

Albert W. Flaherty was a business visitor Friday from Antioch.

Mrs. Alice Lyon left Friday for Phillips Station to assist in welcoming the week-end throng of recreationists at that resort.

Heavy Vote On Bonds Seen

81 Cast Ballots In First Hour After Polls Open

Indications of a heavy vote in the Placerville school district \$40,000 bond election today was seen by school authorities when a check-up showed that 81 ballots had been cast within the first hour after the polls were open.

Polls opened at 1 o'clock and will remain open until 7 o'clock this evening.

School officials have offered to supply transportation to any voter requiring assistance in reaching the polls. Those who wish to take advantage of this offer should telephone the grammar school, number 24.

The \$40,000 bond issue as proposed would make possible enlargement of the school plant to relieve present overcrowding by the addition of four class rooms, a sewing room and a manual training department as well as a moderate sized gymnasium.

The gymnasium, it has been pointed out, will afford the children a dry place to play during the winter months and will serve also to relieve congestion in the lunch room, as well as serving for orchestra practice and similar studies.

Traffic Flows Over Gate

Dedicatory Plaque Has Ingredients From All State

By ROGER JOHNSON
United Press Staff Correspondent

SAN FRANCISCO (UP)—California fulfilled a century old dream today when it officially dedicated and opened the suspension bridge across the Golden Gate amid western pageantry celebrating completion of one of the world's greatest engineering achievements.

President Roosevelt formally opened the bridge at 12 noon, (PST) from the White House.

At that hour, when he clicked a golden telegraph key set up in his private study to start off the dedication.

Native Sons of the Golden West in dedicating the famous Golden Gate Bridge upon its opening to pedestrians yesterday paid tribute to the engineering genius which gave to California the longest bridge span in the world.

The ceremony took place as grand officers of the Native Sons of the Golden West cemented into the bridge at the toll plaza on the San Francisco side, a beautiful bronze plaque. Ingredients for the cementing of the plaque were gathered for the ritual from every county in the state.

The plaque is inscribed as follows: "Dedication by the Native Sons of the Golden West. As tribute to the engineering genius which gave to the State of California the Golden Gate Bridge—longest bridge span in the world. We, the Native Sons of the Golden West make this dedication in recognition of the beauty and utility of this structure and the scientific achievement for which it stands. May 27, 1937."

PARADE OF SPORTS

By HENRY McLEMORE
(United Press Staff Writer)

PITTSBURGH (UP)—If you turned newspaperman for a day and had your choice of these three intriguing subjects for an imperishable essay, which one would you take?

1. The efforts of George Jacobs, U. G. A. president, to become the Hitler-Mussolini-Stalin-Mustapha Kemal of professional golf in three mail order lessons, a double-breasted pair of knickers, one flight up and get a banjo.

2. Somebody's brain child in the form of a style show, which will determine the best-dressed golfer in the world, and what of it?

3. United States patent No. 11457963, a combination permanent waver, pipe cleaner, safety deposit box, and golf ball compressor.

This was the problem that confronted me today, and while I am a man of steel in a crisis, I'll have to admit I was befuddled, bewitched and bewildered.

Somebody, I knew, ought to take a crack at Jacobus and the muzzle he has placed on professional golf players. He hit freedom of speech a paralyzing body blow here when he gagged "Wild Bill" Mehlnhorn, the pericles of the putters. Mehlnhorn, a straight shooter from the mouth as well as the tee, offered an unsolicited opinion that Sam Snead would have been penalized a couple of strokes for picking up a ball on the green. The causes Belli is quite unimportant, but Mehlnhorn's words will live after him, especially the crack that the P. G. A. tournament is a "tiddlewinks tournament where the rules are made up as the boys go along."

Jacobus is the gent I wish to swing on. The second he heard "Wild Bill's" words he and his cabinet repaired in to the portable No. 10 Downing Street he carries to all tournaments, and ordered that Mehlnhorn publicly apologize upon threat of being waived out of the league. Mehlnhorn had no choice. After all, he's a golfer and if he were dismissed from the lodge he would probably have to turn to horse-shoeing, short order cooking, or watch repairing. And he has shown no attitude at these arts.

Brother Jacobus should take time off from his dictating to study one of the amendments to the Constitution of the United States—The one that grants to every man the right to shout, squawk, and scream his opinions so long as he doesn't break any windows, park by the fireplugs, or pass on curves. Before disaster overtakes him, Jacobus had better get in his order for helium and leave that hot air alone.

Let's dismiss the fashion show for golfers with a few lines. Jimmy Thomson will win it since Viola Dana dresses him faultlessly in symphonies (and monogrammed ones, too) of blue, brown, gray, mauve, orchid, heliotrope, and vanilla. He looks like a well kept florist's window, and costs twice as much.

Now for this weird gadget with the high patent number. It was trotted out on the starting tee by a gentleman who refused to give his name. He said that its purpose in life was to mash golf balls so tight that they would travel yards farther when struck by a club. He mentioned a lot of high-falutin' stuff about compression and everybody bit. Five minutes after the device was set up the pros had formed two lines, offering living proof that a golfer will go for anything. If all the human ingenuity that has gone into making it easier to break par had been directed into serious channels, there wouldn't be an ailment pestering mankind, every family would have two automobiles stewing in the pot, and there would be more hands across the sea than you could shake sticks at hands across the sea.

BLADENSBURG, O. (UP)—The winner and new champion of the mushroom-gatherers' title is Mrs. Grover Harris of Bladensburg. She recently found 500 mushrooms in less than 30 minutes.

964 KILLED IN CRASHES IN 4 MONTHS

SACRAMENTO—California's bloody record of automobile deaths still mounts, according to Ray Ingels, director of the State Motor Vehicle Department, who points out that during the first four months of this year 964 persons lost their lives as the result of highway accidents.

In the first four months of 1936, Ingels said, 886 persons were killed in collisions, while the same period this year shows an increase of 8.8 per cent.

Accidents and their concomitants, injuries, kept space with deaths, the director said, 8,972 accidents in 1937 accounting for 11,946 reported injuries, as against 8,058 accidents and 10,564 injuries last year.

"Of the fatal accidents in which the approximate speed was reported," Director Ingels declared, "it was discovered that everyone of these in which more than one person was killed, high speed was involved."

O. L. Sheets, Lynden, Washington, has shipped over 500,000 strawberry plants to Oregon this season.

Sea Lion Can Boast About Operation

SAN DIEGO (UP)—If sea lions are inclined to boast of their operations as humans do, the inhabitants of the seal tank at the San Diego zoo are in for a very boring time of it.

Today, a big sea lion was placed in the tank after an operation—said to be the first of its kind on the Pacific Coast—in which a nembutal anesthetic by injection was used to remove a large hoo and sinker from the animal's stomach.

GOLD RUSH

PORT MORESBY, New Guinea (UP)—Miners are making from \$200 to \$250 a week on a new gold-field discovered here, and shiploads of miners and prospectors are arriving daily to join the gold rush.

Coast—in which a nembutal anesthetic by injection was used to remove a large hoo and sinker from the animal's stomach.

BRONCHO BILL

A Missing Rider

By Harry F. O'Niell

60 Killed In Landslide

(Continued from Page 1)

made the situation a desperate one. Talpujahua is a village of 10,000, site of the famous "Dos Estrellas" gold and silver mine, one of the country's richest. For several years, as the mine was worked, earth had accumulated in gigantic heaps, looming over the adobe-stone-wood homes of the miners and their families. The earth had been processed with cyanide.

Wednesday, engineers saw that there was grave danger to the four dykes that held back the earth. They gave the alarm and most of the villagers sought refuge in the hills. Others remained, refusing to abandon their homes. Yesterday one dyke broke with a roar that echoed through the mountains and buried more than 100 people in the ruins of their homes.

Brake And Light Tests Made

SACRAMENTO—E. Raymond Cato, chief of the California Highway Patrol, today announced that 738 drivers were arrested in April for faulty lights, while 11,133 non-arrest cards were issued. During the month 4,916 cars were tested by members of the patrol for breaks and 507, or 10.32 per cent, were found to be defective.

Of the 1,920 arrests made for truck violations, Cato said, 90 were for speeding and 213 for defective brakes.

CHECK-UP MADE ON OPERATOR LICENSES

SACRAMENTO — Re-examinations by the Division of Drivers' Licenses of persons reported physically or mentally unfit to drive motor vehicles, totaled 112 during April, Paul Mason, chief, announced today.

Of those previously called in, who were re-examined during the month, eleven were found to be operating without the necessary restrictions on their licenses, and were issued licenses with the proper restrictions. Four were found to be unfit to drive; twenty-eight had their cards suspended for failure to appear for re-examination.

The division also received reports in April that 27 persons, involved in accidents, had physical disabilities. Of these fifteen were called in for re-examination; a special investigation of one, reported to be epileptic, was ordered; "stops" were placed in the files against seven and no action was taken on four.

BLACK MARIA

DENVER (UP)—Ten Colorado legislators, late for an important legislative session, were rushed to the state house from a beer parlor in a patrol wagon, the only emergency vehicle available. They reached the legislative chambers in ample time.

Washington cattlemen met at Yakima, May 17-18, to discuss problems of the industry.

Let's Get Married

Vote June 1st On Sewer Bonds

City Hall Polling Place, Open From 6 A. M. To 7 P. M.

Voters of the City of Placerville go to the polls on Tuesday to pass upon a proposed \$50,000 bond issue to be used by the city in co-operation with a PWA grant for the installation of a modern sewer system.

For the purpose of the election, all city precincts are consolidated into one and the city hall is the polling place. Voting will begin at 6 o'clock in the morning and continue until 7 p. m.

Attention is directed to a statement concerning the sewer bond issue by the city council, which will be found elsewhere in this issue.

The proposed improvement is to provide main sewers and intersecting sewers serving all of the city, extending down Hangtown Creek, suspended on concrete piers above the high water level, and leading to a sewage disposal plant below town.

The proposed mains will be ample in size to care for the city's growth for several years as will the disposal plant, which is designed upon a unit plan so that at such time as it is outgrown, an additional unit will be added.

The proposed bond issue of \$50,000 will not be sold unless an application for PWA assistance in the project, now pending in Washington, is granted; and, voting of the bonds will lend support to the PWA application, according to the best information received by city officials.

In conclusion, we repeat that the bonds to be voted can not draw interest at more than 4 per cent, owing to statutory restrictions, and there is reason to believe that the money may be obtained for three and one half, or perhaps, 3 per cent.

2 Million Cars In State

SACRAMENTO—In the first three months of 1937 the number of pleasure cars registered in California exceeded 2,000,000, Howard E. Deems, registrar, announced today.

During this time 2,007,486 automobiles were registered as compared with 1,873,065 in the same period last year, an increase of 7.18 per cent. Total fee paid registration increased from 2,072,284 in 1936 to 2,232,415 for this year, an increase of 7.73 per cent.

County Pupils Win Awards

(Continued from Page 1)

Thomas of Pollock Pines. Wilma Schroth of Placerville, claimed a \$1 award in the eighth grade contest; and Aimee Neely of Placerville, was second in this class and receives a \$2 award.

In the fifth grade contest, Margaret Morehouse wins an award of \$1. Superintendent Fitzgerald will distribute the awards to the principals of the schools concerned, who will pass them on to the teachers and to the pupils.

92 GOES TO SCHOOL

KENTON, O. (UP)—Mrs. Hanna Bacon, 92, and reputed to be an excellent cook, has attended her first cooking school demonstration.

Dr. and Mrs. Lester B. Rantz left Wednesday for San Francisco to attend some of the doings in connection with the opening of the Golden Gate Bridge.

George M. Gowen, formerly on Eldorado Forest and now chief of fire control at the regional headquarters at San Francisco, was in Placerville Wednesday enroute to Yreka, having attended the guard training camp at Armstrong lookout.

J. L. Neighbor, former county high school principal, in a note to friends, reports he and Mrs. Neighbor are well and happy and that he is preparing to pass out 155 diplomas to graduates of Hanford high school, of which he is principal.

Mickey Cochrane May Take Meningitis

NEW YORK (UP)—Physicians today feared that meningitis may develop from the injuries suffered by Mickey Cochrane when he was hit on the head by a pitched ball at Yankee Stadium.

A bulletin at St. Elizabeth's hospital read:

"Mr. Cochrane's general condition has improved slightly. He is mentally alert. His temperature, however, has remained elevated and we are fearful of meningitis."

BALDWIN QUILTS AS PREMIER OF BRITAIN

LONDON (UP)—Stanley Baldwin resigned as Prime Minister today, Neville Chamberlain succeeded him, and the British Cabinet underwent an extensive reorganization.

Baldwin, the country squire who has guided Britain through a critical period, retired to the House of Lords as an Earl and was also created a Knight of the Garter, an extraordinary honor. His wife was made a Dame Grand Cross of the British Empire.

J. Ramsay MacDonald, the veteran laborite, who retired as Lord President of the council, refused an Earldom.

Premier Chamberlain presented his new cabinet to the king at Buckingham Palace this afternoon.

Ailing Banker Is Rushed To Port

HONOLULU (UP)—The yacht Viking, conveyed by the U. S. coast guard cutter Roger B. Tanney, sped here today with its seriously ailing owner, George F. Baker, chairman of the board of the First National City Bank of New York.

HE'S SCOTCH Sir Harry Lauder, famed Scotch comedian, as he arrived in Los Angeles with his niece and personal secretary, Miss Greta Lauder, from New Zealand, where they had enjoyed a fishing vacation. The former coal miner asserted that the world tour on which they were embarked had been made possible by dimes saved during his career.

Co-Ordinator Of Co-Operation Real "Forgotten Man"

Effort To Bring Industry And Labor Together Spends Money But Fails Miserably Of Results

By FREDERICK C. OTHMAN
United Press Staff Correspondent

WASHINGTON (UP)—The office of co-ordinator for industrial co-operation—a one man phoenix which rose from the ashes of the blue eagle—vanished so far into the limbo of the forgotten today that nobody could remember what happened to it.

That includes President Roosevelt, who said he didn't know, and Stephen Early, his assistant secretary, who said he'd try to have somebody find out. He hasn't yet—and the clerks in the co-ordinator's luxurious Towner Building suite, where the rent is \$14,200 a year, are beginning to seek new jobs.

It was in 1935 that big, bald, bluff George L. Berry, southern industrialist, union leader and ardent New Dealer, conceived the idea of trying to continue industrial practices of the defunct NRA on a voluntary basis.

Major Berry said he believed that maybe he could get big business and labor chieftains around a table and persuade them to invoke wage and hour rules satisfactory to all hands. President Roosevelt told him to go ahead and on September 26 of that year created for him the title of co-ordinator for industrial co-operation.

The major took no salary. He hired a staff which cost \$125,000 a year and appointed a "council of industrial progress."

The council held its first meeting soon thereafter in the magnificent federal auditorium, but before it had been well started, it ended in a near fist fight. A furniture man from Chicago started the fracas with a remark which caused the major to call him a liar.

Thereafter, industry did little co-operating with the co-operation co-ordinator. Berry called a second conference a couple of years later, but hardly anyone came. For all that, Berry did his best, making speeches, issuing statements and attempting constantly to bring labor and industry together.

He also took on another job during President Roosevelt's campaign for reelection, organizing "labor's non-partisan league," with himself as president. Berry and his organization supported Mr. Roosevelt.

Then Senator Nathan Bachman of Tennessee died. After conferring with President Roosevelt, Governor Gordon Browning of Tennessee appointed Berry to succeed him. The new Senator moved his personal effects from the Tower Building to Capitol Hill—leaving the co-ordinator for industrial co-operation co-ordinatorless.

President Roosevelt has made no move to appoint another. The girl at the co-ordinator's switchboard still answers all calls with a voice that smiles, thus:

"Major Berry's office."
But he isn't there, the money runs out in June 1 and all the co-ordinator's clerks are looking for work somewhere else. The press agent is taking his vacation, while there is yet time.

The WPA recently approved a statewide project for control of noxious weeds in California.

VOLCANOVILLE NOTES

Cleric Bishop and Forrest Pullen of Pasadena, arrived Tuesday last to start operations on a small scale on the Forrest Kings Mining Company lease. Carl Rendall is also interested in this lease.

A representative of the DeVry Corporation of Chicago, was here last week calling on Leonard Houser. Mr. Houser expects to soon become affiliated with the company as a technical expert in the field of television.

Mrs. J. A. Spann returned Tuesday after an enjoyable visit in Sacramento with her son, Charles.

E. L. Beck and associates, of the American Bar mine, are now beginning operations. We understand they are to drive a new tunnel on this side of the river.

Mr. and Mrs. C. W. Houser and son, Leonard, drove to Placerville, Saturday.

36 Per Cent Gain In Car Mortgages

SACRAMENTO — An increase of more than 36 per cent in the number of vehicle chattel mortgages filed with the State Department of Motor Vehicles in the first three months of 1937, as compared with the same period last year, was announced today by Howard E. Deems, registrar of vehicles.

In 1936 the number of mortgages filed was 15,498 as compared with 21,181 for this year.

During the same period non-resident permits issued totalled 46,414, a jump of 21.90 per cent over the 38,077 issued last year.

"Indicative of the immense amount of work performed by the Division of Registration," Deems said, "during the month of March, there were received 20,919 requests for information, histories and photostatic copies of records appertaining to vehicles registered in California."

Mrs. Marcella Herzog and son went to Sacramento Saturday to visit for a week with her parents, Mr. and Mrs. Bryce.

day. Carl Rendall drove to Auburn on business last week.

Fred Anderson, Mr. Almind and Charles Goin drove to Pasadena Thursday and expected to remain there a few days on business.

Raisors are working steadily on their lease on the Whiskey Diggings. They have several men busy.

Mrs. J. French has been ill at her home on Cock Robin point.

Forrest Pullen left Friday for Pasadena after a few days at the Forrest Kings mine.

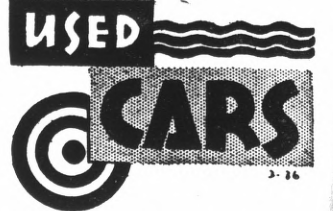

Mr. and Mrs. Ray Fraizler and Mrs. A. E. Fraser drove to Auburn, Saturday.

Mr. O'Brien of Placerville, called on the Housers here Sunday.

The forest service graded our roads last week.
